- Could voluntary be used by non-DOT jurisdictional assets

Does NOT apply to

- Post response environmental remediation
- Exploration and production operations
- Offshore hazardous liquid pipeline operations
- Facility piping
- Natural gas transmission and distribution pipeline operations

Committee Chairs

- Stephen Lloyd, Enbridge
- Gus Borkland, Sunoco Logistics
- Rick Bondy, Magellan
- Michela Moreland, Phillips 66

Agency Participation

Development Timeline

- Committee Kick off, January 2014
- Readers group comments, December 2014
- Initial Ballot concluded, June 2015
- Limited Scope Re-ballot, September 2015
- Re-circulation, November 2015
- Published, December 2015

What is included?

- Management System Approach to Emergency Management
- Emergency Response Program considerations
- Not a 'how to' guide
- Not a reword of regulations

Management Commitment

- Policy
- Management Participation
- Allocation of resources
- Procedures & job aids
- Controlling documents and records
- Measurable goals and objectives
- Continual improvement
- Management of Change

Planning

- Risk Based Planning
- High Consequence Area Considerations
- Claims
- Pre identification of Key resources
- ERAP for pipelines
- Business Continuity
- Crisis Management

Training/Exercises

- NIMS/ICS Training
- Tactical Response Training
- Tools/ Guides/ Job Aids
- PREP

National Preparedness for Response Exercise Program

- HSEEP

Homeland Security Exercise and Evaluation Program

- AAR/IP

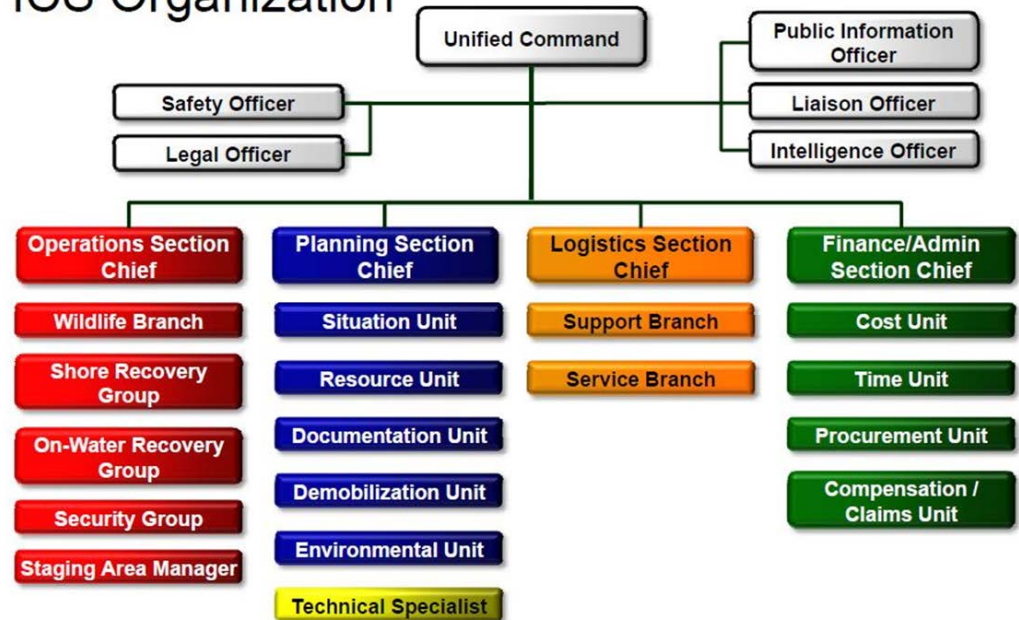

After Action Review/Improvement Plan

Incident Command

- Unified Command
- NIMS
- Role Competence
- Identification of Key Personnel

- ICS Organization

Response

- Safety & Protection
- Shutdown procedures
- Notifications include local 911
- Early Activation of Plan
- “Over Response”
- Response Priorities
- Debrief

Next Steps

- Organizations to review Recommended Practice
- Identify program gaps/improvements
- Determine items that should be included within programs
- Plan to adopt the Recommended Practice

In Closing

- Move industry forward
- Respective organizations to decide how to adopt and follow the RP.
- Lead emergency preparedness and response
