

## **Pipeline Awareness and Engagement Bios**

### Terri Larson (Principal, Larson Communications & Consulting)

Larson Terri has nearly 30 years of experience working in public relations, media relations, internal communication, crisis communication, community engagement, pipeline public awareness programs, and in the broadcast and print news media. Formerly a member of Enbridge's senior leadership team, she is now principal of Larson Communications & Consulting and supports clients on their communication, crisis response programs, community engagement, and public awareness programs and evaluation of program effectiveness. She currently chairs the team tasked with revising API Recommended Practice 1162, which provides guidance to pipeline operators regarding their required pipeline public awareness programs.

### Andrea Grover (Enbridge)

Andrea Grover is director of stakeholder outreach for Enbridge covering their natural gas and liquids infrastructure in the United States. In this role, she strategically oversees education and engagement of local and regional stakeholders including landowners, community members, public officials, media, regulators, and interest groups. As a leader in Enbridge's Public Affairs and Communications department, she directs public and community outreach related to the company's U.S. natural gas and liquids projects, as well as engaging communities to ensure confidence in safety and reliability. Prior to joining the Communications and External Affairs group in 2008, Andrea served as manager of Right of Way at for the company. Having served in the natural gas industry since 1998, Andrea has provided counsel to a number of industry and regulatory groups on issues of public involvement, safety and pipeline siting.

### Eric Swartley (UGI)

Eric Swartley is the Senior Manager Pipeline & Public Safety with UGI Utilities, Inc. which is a natural gas and electric utility committed to delivering reliable, safe and affordable energy to our 700,000 customers in 45 counties in Pennsylvania and one county in Maryland. He is currently responsible for the following programs: Damage Prevention, Cross Bore Awareness, Public Awareness, including outreach

to Emergency Management, and has presented in several state and national forums and authored industry articles. Eric has been in the natural gas distribution industry since 1979. In his over 40 years of industry experience, all with UGI, he has held numerous positions in operations, engineering, marketing, public safety and compliance.

### David Hanobic (FERC)

David Hanobic serves as the Outreach Coordinator for the Federal Energy Regulatory Commission's (FERC or Commission) Office of Energy Projects, Division of Gas – Environment and Engineering (DG2E). DG2E is responsible for the environmental review of interstate natural gas certificate applications for the construction and operation of facilities under Section 7(c) of the Natural Gas Act (NGA), and applications for import and export authorization under Section 3 of the NGA, including liquefied natural gas (LNG) import facilities. David advises the natural gas industry; federal, state, and local agencies; and other stakeholders on the Commission's Pre-Filing Process and Outreach initiatives. He has managed National Environmental Policy Act document preparation and monitored environmental compliance on numerous pipeline and LNG projects. David joined the FERC in 2004 as an environmental biologist. David has a Bachelor of Science Degree in Biology from the Lock Haven University of Pennsylvania.

### Chief Robert Singletary

Robert has spent over 37 years affiliated with the Georgia fire service. He spent 35 years with the Warner Robins Fire Department with 17 of those as fire chief before retiring on Sept. 1, 2016. Robert is a graduate of the United States Fire Administrations Executive Fire Officer Program and has served on many state boards. Robert has been a board member of the Georgia Association of Fire Chiefs (GAFC) since 2006 and has served as Secretary, 1<sup>st</sup> VP, President, Immediate Past President and now Parliamentarian. Robert has been involved with Georgia's Pipeline Emergency Response Initiative since the discussions first began in 2012 between the Public Service Commission and the GAFC. He now travels around Georgia marketing and promoting the program to emergency responders including firefighters, law enforcement, EMS, 911 Dispatch, Georgia Forestry and gas utility

workers. Robert has been married to his wife Sharon for 34 years and has two children Ethan and Jessi and five grandchildren.

### Allen Gray (AGC)

Mr. Gray is the Associated General Contractors of America (AGC) Utility Infrastructure Division Director and Lobbyist. He represents the utility construction industry before the federal government, owners and associated industries. Before joining AGC of America's staff, Allen worked for the Carolinas AGC for over 20 years as their Utility Division Director and Lobbyist. Allen serves, or has served on various inter-industry boards and committees including: the USDOT's Common Ground Study of One Call System Best Practices Steering Team; Common Ground Alliance (CGA) Charter Board of Directors; Co-Editor CGA Damage Prevention Best Practices; Charter Co-Chair of the CGA Best Practices and Stakeholder Advocacy Committees; NC811 Board of Directors; Gold Shovel Standard Board of Directors; USDOT Pipeline and Hazardous Materials Safety Administration Excavation Damage Prevention Initiative and is an inductee in the CGA Hall of Fame. Mr. Gray has also has served his community as a member of the Riverview Community Water System and Riverview Fire Department Board of Commissioners.

### Carl Weimer

Carl Weimer is the Executive Director of the Pipeline Safety Trust. In that capacity, he has served as a member of the U.S. Department of Transportation's Technical Hazardous Liquid Pipeline Safety Standards Committee, the Canadian Energy Pipeline Association's External Advisory Panel, and the governor appointed Washington Citizen Committee on Pipeline Safety. Carl has been called upon to testify to the U.S. House and Senate multiple times, as a witness by the National Transportation Safety Board, and was honored in 2015 as a Champion of Change by the White House for his pipeline safety efforts. He has organized twelve national pipeline safety conferences, pushed for stronger pipeline safety legislation on the national and state level, and regularly serves as an independent source of pipeline safety information for news media, local government, and citizens around the country. Carl was elected in 2005 and again in 2009 and 2013 to the Whatcom County Council, where he served as chairman for four of those

years. He has a degree in Natural Resources and Environmental Education from the University of Michigan, as well a degree in Industrial Electronics Technology from Peninsula College.

### Christopher Ronk (BP)

Chris Ronk is currently in charge of the Inspection & Maintenance department for US Pipelines & Logistics; BP's midstream business which connects strategic refining assets to key marketing hubs across the United States. In his current role, Chris manages the integrity of all of the pipeline systems and distribution terminals. Prior to this role, Chris was deeply steeped in Process Safety and is viewed internally as an expert in the discipline, having supported the entire business as the Risk Management Team Leader for many years. Chris is a chemical engineer by degree, and enjoys making music (he plays guitar and drums) and stand-up comedy.
